Explanation:

The California Statewide Database made the adjusted 2021 redistricting data available on September 21, 2021. The Existing Conditions Report, with this adjusted data incorporated, is provided as Attachment C.

As part of the 2021 Redistricting process, this Existing Conditions Report contains an analysis of the existing, 2011 Supervisorial Districts utilizing the required redistricting datasets:

1. The Adjusted 2020 U.S. Census Bureau P.L. 94-171 Redistricting Data file, which contains the redistributed incarcerated population to their last known California address produced by the Statewide Database as required by California law.
2. The Adjusted Citizen Voting Age Population (CVAP) 2015-2019 5-Year Estimates, disaggregated from the 2010 Census block groups to the 2020 Census blocks by the Statewide Database and also includes the redistributed incarcerated population to their last known California address.

The report also contains 15 maps showing the spatial distribution of the racial and ethnic populations across the county of the Adjusted P.L. 94-171 total population and Adjusted CVAP data along with the 2011 Supervisorial Districts.
