### Split Cities/Census Designated Places (CDPs) -

Anaheim (3)	Orange (3)
Buena Park (2)	San Clemente (2)
Costa Mesa (2)	San Juan Capistrano (2)
Fullerton (2)	Santa Ana (4)
Garden Grove (2)	Seal Beach (2)
Irvine (2)	Tustin (4) <sup>1</sup> Includes split due to Census Bureau error of three blocks that are in Santa Ana
Lake Forest (2)	Westminster (2)
Mission Viejo (2)	

Percent shares calculated using unrounded numbers, but table displays only to tenths; therefore, percents displayed may not sum to 100%.

Number in ( ) indicates number of Supervisorial Districts the city/CDP falls within.

<sup>1</sup> The U.S. Census Bureau misassigned three (3) census blocks to the City of Tustin that are actually in the City of Santa Ana with a total of 260 population. Plan properly assigns blocks with remainder of Santa Ana, effectively reducing Tustin splits to three (3).

Notes: Percentages are calculated from sum of individual categories, not Total Estimated CVAP.

Because this is a special tabulation of data and not part of the standard data products shown on the Census Bureau's data.census.gov website, these estimates are rounded. Therefore, individual categories may not exactly add to the total.

For example, the sum of each of the race groups for non-Hispanics may not be the same as the estimate given for non-Hispanics. These estimates will not match counts from the 2020 Census.

The original data source for the Citizen Voting Age Population (CVAP) is the American Community Survey (ACS). The ACS is an ongoing survey by the U.S. Census Bureau sent to approximately 250,000 households each month.

The ACS estimates used to develop these data were collected from January 1, 2015 to December 31, 2019 utilizing the 2010 Census block groups, which were disaggregated to the 2020 Census blocks by the Statewide Database.

For more information about the CVAP products, visit <https://www.census.gov/programs-surveys/decennial-census/about/voting-rights/cvap.html> and
